

ROBIN'S CORNER

By Robin Watson, Ohio BWC Representative

Q: What kind of information can I receive from BWC Division of Safety and Hygiene Library?

A: The library provides free informational services on the topics of occupational safety and health, workers' compensation, and rehabilitation. We provide the only such library in the state of Ohio, and one of the few in the nation. While most special libraries are not open to the public, our library serves employers, local and state government, legal and health care professionals, Ohio's work force and the general public.

UPDATE ON OCTOBER SAFETY CORNER:

As you remember the October question was about vehicles being covered in LOTO. Yes, it is covered and below is an option for "alternative vehicle control measures" as found by a safety council concerned member. There are steering wheel covers that slip over the top of the steering wheel with a 3/8" diameter with a grommet at the bottom for a lock. They can come with multiple messages: Danger - Do Not Operate or Move Vehicle (white background); Caution - This Vehicle Is Being Serviced - Do Not Attempt to Drive (Yellow background); and Caution - Disabled Vehicle - Do Not Attempt To Drive (Yellow background) and come in three sizes: small (16"), medium (20") and large (24"). There are also links to this at Grainger and other safety supply companies. Thanks to the concerned member for providing other options to keep employees safe.

Christmas will be here before you know it! The Stark County Safety Council will once again be collecting new, unwrapped toys at the December 10th Safety Council luncheon. Over the years our members have joined forces with the **U.S. Marine Corps Reserve Toys for Tots Program** to provide children less fortunate experience the joy of Christmas. We encourage you to get all get all of your employees and co-workers involved in this extremely worthy cause. *Let's fill this year's truck again!*
