Last year, the Canton Regional Chamber of Commerce and Stark County Minority Business Association (SCMBA) began a process to more closely align our work to better serve minority and small businesses as an important and continuing step toward greater diversity and inclusiveness in the broader business community.

Today, the Chamber and SCMBA stand firmly together to denounce racism, lack of inclusion, and inequality of any kind.

To the minority community, we’re listening, we hear you. We encourage business and civic leaders to enact changes that promote an equitable future for all. Our region cannot be successful unless we stand together and leave no one behind. The current state of our nation, while painful as it is, presents an opportunity for us to continue to unite. Together, united as allies, we can accomplish more.

Denny Saunier  
President & CEO  
Canton Regional Chamber of Commerce

Leonard Stevens  
CEO  
Stark County Minority Business Association

OUR MISSION: To lead the region in business and community development through collaboration and innovation.
Background
- Ohio has begun reopening the economy under strict parameters
- Healthcare is leading the way with essential procedures and surgeries
- COVID-19 will change societal and workplace norms, similar to how 9/11 changed airport security

Business Case & Framework
Between Aultman and AultCare, we have the knowledge to assist local companies with operating in this new hyper-sensitive, post-pandemic environment.

Our Services
- Socially-Distanced Workplace Re-Design
- Associate Training & Education
- Incidence Reporting & Compliance
- Clinical Monitoring & Workplace Health
- Infection Prevention & Control
- PPE Procurement & Conservation
- Technology, Testing & Tracing Solutions

Call: 330-491-9675 ext. 397
Email: ews@aultman.com
BWC recently made the following announcement. To weaken the impact of the ongoing COVID-19 pandemic and to assist in creating safe workplaces across our state, we are providing at least 2 million face coverings to Ohio’s state fund employers.

- Under the direction of Governor Mike DeWine, we are sending Ohio employers covered by BWC these non-medical-grade face coverings — funded from our existing budget and at no impact to employer premium — as our latest effort to support our employer community and workforce through this public health emergency.

- Ohio employers covered by the Ohio Bureau of Workers’ Compensation (BWC) that report payroll (i.e. they have employees) will receive a package from us containing at least 50 face coverings.

Cost: Less than $1 on average per face covering, covered by our existing budget and at no impact to employer premiums. We began shipping batches on May 20. We are working on obtaining additional supplies so we can send even more face coverings in the weeks ahead.

- The face coverings don’t guarantee protection from COVID-19. However, public health experts say they lessen the risk for carriers to transmit the virus to others.

- They are intended to support and enhance, not replace, any workplace safety and health efforts your employers already have in place.

- We encourage employers and their employees to wear the face coverings, practice proper social distancing, wash their hands frequently, and follow other guidelines posted on coronavirus.ohio.gov.

- If employer have any questions about BWC as it relates to COVID-19:

Visit our COVID-19 information page at bwc.ohio.gov, or Email us at BWCCOVID19@bwc.state.oh.us.

CANTON REGIONAL CHAMBER MEMBERS PROVIDING PPE

Our Chamber is committed to helping businesses safely re-open. The Chamber members listed HERE have indicated that they are able supply certain PPE products.

If you are in need of PPE, please check with these companies to determine availability and/or minimum quantities. If your business is supplying PPE and is not listed, please email ppe@cantonchamber.org or leave a message at (330) 456-7253.

We Got You Covered

Celebrating 90 Years!
Join us for the AultCare QuickConnect Virtual Networking Event on June 17 with Marvin Montgomery’s “Selfies For Success!”

• Learn that we have to take full responsibility for ourselves
• Identify specific selfies that are an opportunity for improvement
• Identify the negative selfies that can be harmful
• Explore five specific areas that we can control ourselves
• Participants have an opportunity to provide a minimum of five additional Selfies
• Brainstorm negative Selfies to stay away from
• Q & A

For more than 30 years, Marvin Montgomery has earned widespread national recognition and praise for his informative, practical and stimulating programs that reflect his basic philosophy: “Preparation and practice are the keys to sales success.”

98 YEARS IN CANTON
Black McCuskey is proud to be a full-service law firm in downtown Canton, Ohio.

Since 1922, the tradition of community service established by our founders continues today. Throughout the years, we have remained committed to serving our community and to improving the quality of life in Canton and its surrounding areas.

We look forward to partnering with a new generation of entrepreneurs, business leaders and organizations to continue to foster the economic development of our region.

Our passion for legal excellence drives our dedication.

Our commitment to providing exceptional service sets us apart.

Experience the difference.
Business Impact Survey

RESULTS SIGNAL LONG ECONOMIC RECOVERY

Thank you to all the respondents of our COVID-19 Business Impact Survey #2. The results will help our Chamber advocate on a state and federal level for much-needed business relief and assistance. As one of Ohio’s eight Metro Chambers, having good data from our business community is essential as our Metro Chambers move forward with a unified public policy voice.

SUMMARY FROM COVID-19 IMPACT SURVEY #2:
- The coronavirus crisis has had broad and significant effects on our region’s economy, resulting in major declines in revenue and employment (despite the fact that many businesses have remained open through the pandemic).
- The PPP loan program was far more successful than the EIDL program, but the level of assistance received from both programs, while much needed, was inadequate in most cases.
- Given the magnitude of economic damage from the crisis, recovery will be a long process – and more federal, state and local assistance is needed to help get businesses and workers back on their feet.

ECONOMIC IMPACT
- The pandemic has had a significant impact on businesses in the region. All respondents reported being affected by the pandemic, with slightly more than half 51% saying their organizations have been “severely affected.”
  - The survey indicates that businesses have been hit hard. 46% of respondents have seen their organizations’ revenue decline by half or more during the pandemic and another 28% report a 30%-50% drop. 15% said their revenue was off by 5%-30%.
  - Nearly 60% of respondents report that their organizations remained open throughout the crisis. Of those who closed operations at some point during the past two months, 10% have reopened completely, 21% have reopened partially and 10% remain closed.
  - Regarding employment, 54% of respondents have maintained their payrolls at pre-pandemic levels, while 46% report either temporary 38% or permanent 8% reductions in staffing.

FEDERAL LOAN PROGRAMS
- More than 80% of respondents said their organizations had applied for an SBA disaster loan or PPP loan (or both).
  - Of the 12 respondents who said their organizations applied for SBA disaster loans (EIDL), half (6) received a loan advance and half (6) have been informed that their applications have been approved (although only 3 have received the funds). One respondent reported a denied application, and two have received no communication from the SBA.
  - The PPP loan program appears to have been more successful, with 74% of respondents (29) indicating that their organizations were approved for PPP loans (and all have received the funds). One respondent’s application is still pending, and two had their applications denied.15% report being unable to find a financial institution to work with on a PPP loan application.

(continued next page)
SURVEY RESULTS CONTINUED...

- Regarding PPP loan forgiveness, nearly 70% of respondents indicated they were very or somewhat confident in their understanding of the rules, while 30% said they were "not very" or "not at all" confident.

- Out of all 39 respondents, 26% received no loans, and 6% indicated that the money they received made little or no difference to the viability of their organizations. 44% indicated that the loans helped, but said they were still struggling, while 23% said the funding they received helped keep their organizations strong.

CLICK HERE TO VIEW COMPLETE SURVEY RESULTS!
The Board of Directors of the Downtown Canton Special Improvement District voted unanimously to contribute $15,000 to the Faith in Stark organization at the Stark Community Foundation to support downtown businesses within the SID geographic footprint. We hope these funds, along with other donated funds, will be beneficial to downtown businesses and support the reopening of our downtown.

Downtown Restaurants Reopening

As many Downtown Canton restaurants begin reopening for business, please check with each location as this list is evolving, and restaurants will be reopening at different paces. Carryout, delivery and gift cards are also a great way to continue helping these businesses thrive!

Furloughed staff, reduction of hours, and remote working are, unfortunately, common practices instituted by many businesses during this stay at home order as a result of the COVID-19 pandemic. Add to this the college bound students who are now home due to the pivot by higher education institutions from classroom to on-line learning. More time at home presents opportunities for existing working staff, displaced workers, and those who have started on their higher education journey.

This pause in business and classroom teaching offers the opportunity to “upskill” our workforce through on-line programs offering industry credentials and certifications through short term training for in-demand careers. Unemployed, underemployed, those affected by the COVID-19, and others can pursue career enhancement certificates which are transportable skills in a given industry. Reallocated state grant dollars are available which makes this training free or at a low cost when coupled with PELL grants and other incentives through Stark State.

Having an industry credential or certification makes a resume more attractive to hiring managers. In many instances the courses needed to earn the credential can also be applied to the path to earn an associate’s or eventually a bachelor’s degree.

There are over 200 in-demand occupations as defined by the state. In-demand occupations include those with:

• family sustaining wages
• projected growth through 2024 and a promising future

For a list of Stark State certifications being offered on-line as part of the new state funding agreement, see www.starkstate.edu/upskill.

You, a co-worker, or a family member may be a prime candidate to apply for this “upskill” opportunity. We are in this together and we will win this fight together in getting our economy and employment back in balance.

Director of Education Initiatives
Staying Afloat in Rough Waters?

Successfully running a small business can be challenging in the most favorable circumstances. Staying afloat during rough waters roiled by the pandemic with its wide and deep effects adds to those challenges.

Two long-time Canton Regional SCORE Chapter clients, both of whom have been recognized as Small Businesses of the Year, are classic examples of businesses that have been rocked by Covid-19 but also have scored some successes.

Rick Carter launched SupportFire, a full-service IT firm, eight years ago. His business took a big hit when a major retailer suspended going ahead with Rick’s firm updating A-V systems in 24 of its stores. He lost another customer when it lost its franchise license. Rick didn’t cave. He moved quickly to connect with two referrals. Both led to 24-month contracts for full-system IT management.

Kris and Lacie Hart have been running HartsSports LLC for about the same number of years. They specialize in designing and making logo’d apparel and vehicle wraps as well as free-standing signs and banners. Through April sales on a year-to-year basis had sagged significantly. They began ramping up email marketing, sending missives to all customers and prospects, emphasizing that they are available to help navigate tough times. Their action led to a food market ordering logo’d t-shirts, hoodies and crew neck sweaters. For another new customer, owner of a drive-thru, the Harts designed and produced signs, banners and truck decals and are expecting to do a vehicle wrap. In their email marketing, the Harts are including links to their website and business Facebook page. Next they will be emailing a second round of letters.

The SCORE chapter itself, unable for the time being to mentor in person with clients, are employing ZOOM. While it can’t duplicate all that can take place during in-person counseling, the technology does provide needed assistance to clients, both for-profit and non-profit. With chapter members reaching out to clients by phone and email, a result has been much more ZOOMing.

The chapter belongs to 11 area chambers of commerce. Several are helping to spread the word on our mentoring services and upcoming webinars-as-workshops.

SCORE's mission is to help area small businesses and non-profits continue to score as they contend with rough waters.

For free business mentoring advice, or more on upcoming webinars contact SCORE at www.CantonSCORE.org or 330.244.3280. We are located at 6000 Frank Ave NW, Canton, OH 44720

EVEN A PANDEMIC COULDN'T STOP THEM!

Despite the difficulties produced by the unexpected occurrence of a world-wide pandemic, the Leadership Stark County 33rd Signature Class persevered to complete their program. In a showing of strategic agility, the Leadership staff, volunteer facilitators, and guest speakers collaborated to produce the April and May programs through a combination of live virtual meetings, recorded presentations, and hands-on activities. We thank everyone who may have stepped out of their comfort zone to achieve this. In addition, we appreciate the support of Huntington for sponsoring the 33rd Class graduation event which took place June 2 via live virtual meeting of the class members and staff.

PLEASE CONGRATULATE THESE PROUD GRADUATES:

Dave Andrews, 3-D Scanning Coordinator, R.E. Warner & Associates

Stark County Safety Council

COVID-19 UPDATE

In compliance with orders from the State of Ohio, the June Stark County Safety Council monthly luncheon has been cancelled. Safety Council members will be awarded one meeting credit for every meeting cancelled.

The CEO Breakfast and Crime Prevention Breakfast will be rescheduled at a date to be determined.

As this situation takes us closer to the end of the fiscal year, BWC is reviewing policy and legal requirements to determine flexibility with program requirements. When decisions are made regarding the Ohio Safety Council rebate program, we will share them with you.

SCSC will continue to provide our members with relevant information regarding the coronavirus, safety programming, and safety tips.
Get to know the young professionals who will shape the future of Canton/Stark County! Each month, we’ll introduce you to a YP who is living or working, but most importantly, thriving in Stark County!

Name: Rachel Hagemeier

Occupation/Title/Place of work: Manager of Education and Community Engagement Canton Symphony Orchestra

Age: 22

Why are you interested in Stark County’s Young Professionals initiative? As someone from outside this area, it is good to see an organization that is working on bringing young people together by giving them professional and networking opportunities.

What would you share to encourage other people to join? This organization supports you as a professional and gives you opportunities to meet new people and develop relationships.

Did you grow up in Stark? If so, where? If not, where did you move from and why? I grew up in Oklahoma, but I went to school in Cleveland, Ohio. I moved here to Stark County when I got my currently position at the Canton Symphony Orchestra.

Why do you stay in Stark County, from both a personal and professional point of view? Even though I have only been in Stark county for a short amount of time, I have found Stark County to have a flourishing artistic community and residents that support their arts organizations. I think this is a wonderful community to start my career.

What do you like MOST about Stark County? It is a diverse community with access to lots of arts organizations, locally owned businesses, restaurants, industry, and the potential to expand even further.

What would you change about Stark County if you could? Give me a year of living here and then I might be able to tell you.

What do you see as valuable opportunities for YPs in Stark County when it comes to career opportunities, cultural access, leadership or community involvement opportunities? Young people in Stark County can take advantage of the many nonprofits here and become young board members. I believe nonprofits will benefit from having young perspective on boards and young professional will gain connection and experience.

What would attract more YPs to Stark County? I think if what we have now was more publicized, people would be attracted to this area. We have wineries, business, and lots of arts. As long as we continue to support these things, I think people will continue to move to this area.

What do you do in the evenings or on the weekends for fun in Stark County or NE Ohio? I like to try new restaurants and explore the area. But since I am new, send me recommendations!

Could you see yourself spending your lifetime in Stark County and if not, what would cause you to leave? My field of work usually leads to a lot of travel, so I will probably move away from Stark county but I’m sure I won’t move because of Stark county.
Congratulations to the 2020 Twenty under 40! class of award recipients. The Canton Regional Chamber of Commerce, ystark!, and The Canton Repository will recognize these twenty incredible leaders at the 13th Annual Twenty under 40! Awards Party. Full event details will be announced soon.

Jonathan G. Bishop • Benjamin H. Childers • Rebecca Coneglio
Christopher L. Cugini • Julie Elkins • Kristen Foss
Katherine Gessner • Maribeth Graham • Ryan Hartong
Alivia Hershberger • Kelly Klein • Shelley Knight-Bourn
Mark Lapikas • Niki McIlvain • Aaron McMichael • Ryan C. Miller
Rod A. Moore • Lucas W. Murray • Darryl Owens Jr. • Lambros Paxos

Nominees were selected on career acumen, community service and trusteeship, and personal and professional achievements. The Twenty under 40! selection committee is comprised of Stark County business and community leaders representing a variety of industry sectors.
NEW MEMBERS

WELCOME to our newest members, who joined Canton Regional Chamber of Commerce in April. We encourage you to patronize their businesses. If you know of other businesses that would benefit from Chamber membership, please contact the Membership Department at (330) 458-2051.

**Gervasi Vineyard** has reopened its doors to all four on-site restaurants/venues in May (The Bistro, The Crush House Wine Bar & Eatery, The Piazza and The Still House). In addition, the company also reopened both the outdoor and indoor dining to its sister property, The Twisted Olive, located in Green. This announcement is following Governor DeWine’s “Stay Safe Ohio Order”.

As a directive of Governor DeWine’s procedures on safety for restaurants, GV Destinations will follow the health department’s guidelines for best practices, including elevated cleaning and sanitation guidelines and protocols. These practices include: all employees will be pre-screened with temperature checks and required to wear masks, gloves to be used for designated kitchen and cleaning duties, and consistent handwashing and sanitation will be emphasized. The standard 6 foot guideline for social distancing will be put in to practice at all establishments.

After much consideration, the **Domestic Violence Project, Inc. (DVPI)** Board has turned its annual Champions of Hope Gala scheduled for Thursday, June 18 virtual due to public health concerns regarding the coronavirus (COVID-19) pandemic.

Champions of Hope is DVPI’s largest fundraising event of the year for the local nonprofit. DVPI relies heavily on the funds generated at the gala to support the services provided to victims of domestic violence. These services include emergency safe shelters in Massillon and Canton which serve hundreds of adults and children every year. The date for 2021 will be announced in the coming weeks.

Watch DVPI’s Facebook page for weekly updates and join us virtually on Thursday, June 18 for raffle baskets, live auction items, survivor stories and more! To donate, visit DVPI’s website at www.dvpi.org.

**Total Distribution, Inc.** (TDI), a Peoples Services, Inc. company, acquired the Winston-Salem, NC cold storage warehouse back in December 2017. During the past two years, TDI has upgraded the facility to meet the increasing demand for cold storage.

This 80,000-square foot facility has a new insulated roof, updated cooling equipment, new racking, concrete dock area, automated freezer doors and seals as well as refurbished offices. The company has expanded the cooler rooms and can expand or contract space as customer need requires. Additionally, the facility has 35,000 square feet of dry space and several acres of property available for future expansion.

TDI sees the importance of constantly improving as a company and values the additional and flexible space that the Winston-Salem warehouse location provides with its cold storage capabilities.

The company operates over eight million square feet of public and contract warehouse space specializing in a variety of commodities.

**Innis Maggiore**, the nation’s leading positioning ad agency, today announced it has launched its Stimulate Our Stark (SOS) initiative. Through SOS, the agency is helping local businesses by offering a complimentary one-hour strategy session to any company in Stark County through Tues., June 30.

“COVID-19 has shifted the landscape for many American businesses,” said Innis Maggiore President and CEO Dick Maggiore. “None of us could have seen this coming. Adapting during this crisis is tough. We’ve had to learn to adjust to our new reality as well.”

As Ohio begins to reopen, it’s important for businesses to find a clear, strategic direction forward. Making important decisions right now can be overwhelming. An outside perspective can help.

For additional information about SOS, or to set up your complimentary one-hour session, email Dick Maggiore at dick.maggiore@innismaggiore.com or call 330-492-5500.

**At your location or ours, we’ve got you covered.**
