

Stark County ISO 2015 Transition Consortium

ISO 9001, ISO 14001, TS, and AS Quality Management Systems

Learn how you can improve your bottom line and customer satisfaction by staying up-to-date and compliant with the new ISO standard!

Following three years of research and work by experts from nearly 100 countries, the ISO system standard has been updated to reflect changes and trends present in today's manufacturing world. These updates, which are designed to follow a new, high-level structure, allows for easier integration of multiple management systems and act as a cohesive way to improve your operations and grow your bottom line.

Manufacturers who participate in the consortium will:

- Understand what steps their company should take to remain compliant with new ISO regulations
- Learn more about updates to topics like leadership requirements, risk-based thinking, and more through shared learnings and group training at local venues
- Simplify the process of updating their quality management systems by receiving expert coaching
- Experience a unique, cost-effective approach that blends group training with on-site or remote support

Free Information Sessions:

These meetings are designed to give a summary of what the consortium has to offer. A teleconference option is available if you are unable to attend. You can also contact Bob Schmidt for details.

- Wednesday, May 24, 2017 from 1:00 PM to 2:00 PM at Canton Chamber (222 Market Ave. N, Canton, OH 44702)

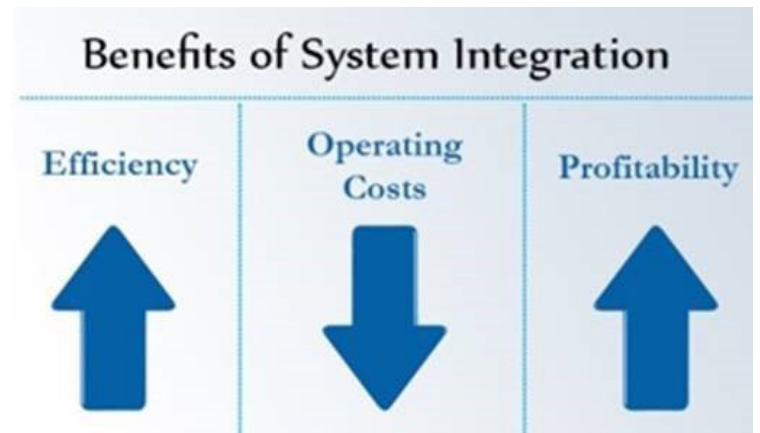

To register, contact Bob Schmidt at robert.schmidt@magnetnetwork.org.

More details and pricing information can be found below.
